A little more about us...

The children and young adults at Seashell have a high complexity of need. All our students and residents have profound and multiple learning disabilities with limited or no functional communication skills.

Providing an education for this low incidence, high need cohort requires a highly specialist environment and skilled workforce. **Seashell is one of very few places that can provide this.**

Our values...

Strong charity values run through our core. These are the things that are really important to us.
